ALL ABOUT MY CHILD
INSTRUCTIONS FOR PARENT WITH ELEMENTARY CHILD

This tool was developed to help your childcare provider support the growth and development of your child while creating a safe stable and healthy environment for all children.

STEP 1: INFORMATION TO BE COMPLETED BY THE PARENT/GUARDIAN

IDENTIFYING INFORMATION: Fill in identifying information including your child's nickname.

THINGS MY CHILD DOES WELL: Indicate characteristics of your child's behavior and skills, which you consider to be things your child does well in the following areas: physical activity, language, self-care, emotional, and social. Examples could include your child's problem solving ability, inquisitiveness, expression of thoughts, sharing ability, climbing skills, ability to use a spoon, fork, or drinking cup. Your child care provider can use these examples to help your child develop new skills.

WHAT MY CHILD LIKES AND DISLIKES: Indicate your child's likes and dislikes including toys, objects, people, foods, and activities. Indicate if fear is associated with any dislikes and discuss with your provider. Making a note of your child's likes and dislikes will help the provider make your child feel more comfortable.

THINGS MY CHILD MIGHT NEED HELP WITH: Indicate if the child requires individual attention. This may be required only during certain activities or during the entire time the child is in care. Some examples are help with tying shoes, encouragement to participate in group activities or to sit still, or reinforcement of a behavior management program. Any need for additional supervision is determined between the parent/guardian and the provider.

STEP II: THE PROVIDER'S PART

SPECIAL ADAPTATIONS THE PROGRAM WILL MAKE AT THIS TIME: *(For the use of the provider when necessary):* In addition to the established provisions of the program, indicate any modification of the program necessary to meet the unique needs of this child. Examples may include adding activities that this child especially likes or performs well, providing extra supervision when the child is performing difficult activities, removing anything to which the child is allergic, rescheduling activities so that they do not interfere with any treatments, moving furniture to accommodate wheelchairs, and adapting activities so that the child will be included. Decisions may be made in cooperation with the parent/guardian.

STEP III: USE OF THE INFORMATION GATHERED

ONGOING: The provider should be familiar with the information gathered on this form before working with the child. *All information collected shall be confidential. Written parental permission must be obtained prior to sharing this information with anyone other than the provider(s) and the Child Care Administration's Licensing Specialist. The information needs to be updated as the child's need(s) change or at a minimum annually.* Revision of program plans can occur at any time based on observations of the child or updated evaluations (it may be helpful to make updates in a different color ink). It is important that the parent/guardian and provider devote time to discuss the child's day-to-day behavior and participation in activities. By doing this routinely, problems can be prevented.

DAILY: The provider/staff must have daily access to each child's personal information in order to adequately provide for the safety and care of each child. The information may be used to schedule procedures, treatments, program modifications, and/or additional supervision. The provider plans the program of activities to enable each child to participate with the group as much as possible.

ANNUALLY: This information must be reviewed and updated *at least once a year* by the parent/guardian. The parent/guardian and provider must initial and date the form when it is reviewed each year.
